**Subject:** RE: Materials for Tomorrow's PFAS Council Meeting  
**Attachments:** OGC PFAS Council BriefingFINAL.docx

Hi All – Attached please find the paper for tomorrow's OGC Briefing. As much as we tried to simplify, the material is still rather dense, so it would be best if you could try to read or skim it before tomorrow's meeting. That way we can spend more time on questions than overview. In any event, we will try not to get too far into the weeds during our presentation.

The first several sections contain summaries of our statutory authorities, with an eye toward both educating each other about statutes outside of those we work on and spurring ideas about how the various authorities might be used in concert to better address threats from PFAS. Those sections are followed by some initial thoughts regarding ways we might address barriers that have been identified by the Council and then some ideas about how our effort could benefit from legislative action.

Apologies for getting this to you all so close to the meeting. Please let me know if you have any questions. Thanks! Dawn
